Professional Summary

Results-driven Full Stack Developer with hands-on experience building and deploying scalable web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Skilled in integrating REST APIs, AI-powered features (Gemini API, NVIDIA API), Razorpay payments, JWT & OAuth authentication, and delivering responsive, production-ready products deployed on Vercel and Render.

Projects

MockifyAI | *React.js, Vite, Node.js, Express.js, MongoDB, Tailwind CSS, Gemini API, NVIDIA API* | [Live Demo](#) | [GitHub](#)

- Engineered a SaaS platform utilizing Gemini API for prompt-based API generation, reducing developer setup time by 80%.
- Developed a custom API Generator — users describe any field/domain and the platform auto-generates ready-to-use REST APIs.
- Added JSON-to-API functionality: users paste JSON data and the platform instantly generates a fully functional API endpoint.
- Designed an API Playground with request/response visualization, format fixer utility, and interactive API exploration.
- Implemented secure JWT-based authentication, profile management, personalized interview history, and progress tracking.

Velour | *React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT, Google OAuth 2.0, Razorpay API* | [Live Demo](#) | [GitHub](#)

- Developed a premium MERN stack e-commerce platform with product catalog, cart, order management, and admin dashboard.
- Implemented secure authentication via JWT and Google OAuth 2.0 for a seamless protected login experience.
- Integrated Razorpay payment gateway supporting real-time, secure transactions across multiple payment methods.
- Built a comprehensive Admin Dashboard for managing product listings, order tracking, and live inventory management.

Aurelia | *React.js, Node.js, Express.js, MongoDB, Tailwind CSS, REST APIs* | [Live Demo](#) | [GitHub](#)

- Built a full-stack e-commerce application with complete product browsing, cart management, and checkout flows using the MERN stack.
- Implemented dark mode support and comprehensive mobile responsiveness across all pages and components.
- Consumed RESTful APIs for dynamic product data, user state management, and order processing ensuring real-time data accuracy.

Technical Skills

Languages: JavaScript (ES6+), C++, C, Python (Basic)

Frontend: React.js, Vite, Tailwind CSS, HTML5, CSS3, Bootstrap, EJS

Backend: Node.js, Express.js, REST API Development, MVC Architecture

Databases: MongoDB, MySQL

AI & APIs: Gemini API, NVIDIA API, OpenAI API, REST API Integration, Custom API Generation

Auth & Pay: JWT, Google OAuth 2.0, Razorpay Payment Gateway

Tools: Git, GitHub, Vercel, Render, Figma, WordPress

Concepts: CRUD Operations, Responsive Design, Agile Development, Performance Optimisation

Education

IPS College, Jaipur

July 2023 – Present

Bachelor of Computer Application (BCA)

Relevant Coursework: Data Structures & Algorithms, DBMS, Object-Oriented Programming, Web Technologies, Computer Networks

The Castle Convent Sr. Sec. School

2022 – 2023

Senior Secondary (XII – Science)

The Castle Convent Sr. Sec. School

2020 – 2021

Secondary (X)
