SUMMARY

[Portfolio](#)

Motivated Full Stack Developer with a strong foundation in the MERN stack (MongoDB, Express.js, React, Node.js). Experienced in building scalable web applications, integrating REST APIs, and designing responsive user interfaces. Proven track record of deploying live projects on Vercel and Render.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), C++, C, Python (Basic)
- **Frontend:** React.js, Tailwind CSS, HTML5, CSS3, Bootstrap, EJS
- **Backend:** Node.js, Express.js, REST APIs
- **Databases :** MongoDB, MySQL
- **Tools & Platforms:** Git, GitHub, Vercel, Render, WordPress, Figma (UI/UX - Basic)

PROJECT

Velour - Full-Stack E-Commerce Platform

[Live Demo](#) | [GitHub](#)

- **Developed a premium MERN stack e-commerce application** with a focus on high-end user experience, featuring a sleek product catalog and an integrated management system.
- **Implemented secure User Authentication** using **JWT and Google OAuth**, ensuring a seamless and protected login experience for users.
- **Integrated Razorpay API** for a fully functional and secure payment gateway, enabling real-time transaction processing.
- **Engineered a comprehensive Admin Dashboard** to manage product listings, track orders, and monitor real-time inventory updates efficiently.
- **Designed a minimalist and sophisticated UI** using **Tailwind CSS**, prioritizing mobile-first responsiveness and smooth user transitions.

Tech Stack: React, Node.js, Express.js, MongoDB, Tailwind CSS, Axios, JWT, Razorpay API.

Zerodha Clone (Full-Stack Trading Platform)

[Live Demo](#) | [GitHub](#)

- Developed a high-performance **MERN stack** trading application featuring a professional landing page and a functional trading dashboard.
- Implemented **multi-app architecture** to separate the user-facing landing page from the secure trading environment for better scalability.

- Built real-time data visualization components for **Holdings and Positions** by fetching and managing data through REST APIs.
- Designed a clean, professional, and fully responsive UI using **Tailwind CSS**, ensuring a seamless experience across all devices.

Tech Stack: React, Node.js, Express.js, MongoDB, Tailwind CSS, Axios

Wanderlust (CRUD Web App - Ongoing)

[Live Demo](#) | [GitHub](#)

- Developed a full-stack web application for managing property listings with Create, Read, Update, Delete (CRUD) operations.
 - Built a custom animated loader with JavaScript and CSS for smooth UX.
 - Integrated features like image uploads, user reviews, and a responsive UI using Bootstrap.
- Tech Stack: Node.js, Express.js, MongoDB, EJS, Bootstrap

Arihant Marble House (Live Website)

[Live Demo](#)

- Designed and developed a responsive business website using WordPress.
- Built a custom animated loader with JavaScript and CSS for a smooth user experience.
- Optimized for speed, mobile responsiveness, and SEO performance.

Tech Stack: WordPress, HTML, CSS, JavaScript.

4.ATM Management System (C++)

- Developed a console-based ATM Management System using Object-Oriented Programming (OOP) principles.
- Implemented features like user authentication, withdrawal, deposit, balance inquiry, and transaction .
- Integrated file handling for persistent data storage and applied exception handling for input validation and transaction safety.

Tech Stack: C++, File Handling, OOP Concepts, Exception Handling.
